PROFESSIONAL SUMMARY

Computer Science undergraduate with practical experience in software engineering, web development and Python-based application development. Skilled in programming, database management and full-stack technologies, with experience developing AI-powered applications and presenting technical research. Interested in analytical problem-solving and developing reliable software solutions in professional IT environments.

TECHNICAL SKILLS

Programming Languages: Python, Java (Basic), C, C++, SQL
Web Technologies: HTML5, CSS3, JavaScript
Frameworks & Libraries: React, FastAPI, Node.js, Tailwind CSS
Databases: Firebase Firestore, MySQL (Academic Knowledge)
Developer Tools: Git, GitHub, GitHub Pages, Firebase Hosting, Render

INTERNSHIP EXPERIENCE

Web Development Intern | Cognifyz Technologies (Virtual Internship) Feb – Mar 2026

- Completed assigned web development tasks by creating individual web pages based on given requirements.
- Worked on webpage structure, styling and layout improvements while following the provided task specifications.
- Practised frontend development concepts through task-based implementation and iterative refinements.

Software Engineer Intern | WEBBED (Virtual Internship) Dec 2025 – Jan 2026

- Developed a full-stack web application using React and Tailwind CSS (front end) and Python FastAPI (back-end APIs).
- Implemented data storage and retrieval with Firebase Firestore, integrated with the API layer.
- Deployed the back end on Render and the front end on Firebase Hosting, completing the build-to-deployment workflow.

PROJECTS

ResumeAI – AI-Powered Resume Analyzer | *React, Python, FastAPI, Firebase Firestore, Tailwind CSS*

- Developed a full-stack resume analyzer (React, FastAPI) that compares resumes against job descriptions, using keyword matching to generate an ATS compatibility score.
- Implemented skill-gap analysis to identify missing skills and generate AI-powered improvement suggestions and personalized learning roadmaps via FastAPI endpoints.
- Integrated Firebase Firestore for data storage and built an interactive React and Tailwind CSS dashboard presenting results as actionable insights.

Chai Tales – Premium Chai Experience (Frontend Web Project) | *HTML5, CSS3, JavaScript*

- Designed and built a four-page website (Home, Menu, About, Contact) with consistent navigation and a shared footer.
- Structured a menu of seven beverage categories with itemized pricing; added JavaScript interactions including animated statistics and a franchise enquiry form with confirmation dialog.
- Deployed on GitHub Pages. Live Demo: mukesh0630.github.io/Chai-Tales

EDUCATION

Bachelor of Science in Computer Science | Dwaraka Doss Goverdhan Doss Vaishnav College, Chennai Expected 2027
CGPA: 6.9/10

Higher Secondary Certificate (State Board) | St. Mary's Boys Higher Secondary School, Perambur, Chennai 2024

CERTIFICATIONS

Data Science with Python | MSME Technology Development Centre, Chennai (Government of India) Feb – Mar 2026
Post Graduate Diploma in Computer Applications (PGDCA) – Distinction | Computer Software Institute, Perambur 2024
Career Edge – Young Professional | TCS iON (Tata Consultancy Services) August 2025
Java Programming for Beginners | Simplilearn SkillUp July 2025

RESEARCH PRESENTATION & ACHIEVEMENTS

- **Presented a research paper** titled "Hybrid LLM-LRM Agent Architecture for Autonomous & Reliable On-Demand Task Execution" at the 2nd International Conference on Cybernetic Nexus (ICCN-2026), Dwaraka Doss Goverdhan Doss Vaishnav College, February 2026.
- **Best Team** – GROW RYLA 2025 (Rotary Youth Leadership Awards), Dec 2025, recognizing teamwork and collaboration.
